Decillion Group successfully rolls out MAPS for Rabobank International Singapore branch

SINGAPORE, 19th April 2010 – Decillion Group, the leading provider of banking software solutions, announced today that it has successfully rolled out Modular Automated Processing System (MAPS) for Rabobank International Singapore branch.

MAPS is Decillion's state-of-the-art solution developed on top of Microsoft BizTalk Server to enable Straight Through Processing (STP) of SWIFT messages. The service-oriented architecture (SOA) and modular design of BizTalk Server enables MAPS to be deployed rapidly and scaled to meet enterprise requirements. With the SWIFT certified BizTalk Accelerator for SWIFT (A4SWIFT) from Microsoft, MAPS automatically supports all new SWIFT messages, significantly reducing development costs and time.

Chen Guang Hong, Assistant Manager of Rabobank International, said, "MAPS allowed us to adapt quickly to the changing SWIFT message standards, especially for the MT202COV introduced in the 2009 message standards, with minimum impact to our back end systems. We have since gone live with the 2009 message standard on 23rd Nov 2009 and MAPS has exceeded our expectations."

Adrian Ng, Regional Account Manager of Decillion, said, "We are delighted with rolling out of MAPS for Rabobank International Singapore branch. The success of this implementation demonstrates the versatility of MAPS. We look forward to continue working closely with Rabobank to help them achieve their goals of delivering solutions that reduce risks and improve operational efficiencies."

"Financial messaging to SWIFT and national payments networks is quickly becoming a commodity function. In response, banks are looking for a simpler way to implement and manage format changes. The MAPS solution from Decillion, which builds upon BizTalk's SWIFT Ready Financial EAI certification, provides banks with a cost effective solution for simplifying message compliance yet still provides the necessary flexibility to integrate with complex back office systems." Said Colin Kerr, Microsoft Worldwide Industry Manager, Payments and Core Banking.

About Decillion Group
